### **Daruma Chinese Fringeflower**

*Loropetalum chinense 'Daruma'*

Height: 3 feet

Spread: 4 feet

Sunlight:

Hardiness Zone: 7

Other Names: Chinese Fringe Flower, Chinese Witch Hazel

#### **Description:**

A pretty spring-blooming dwarf variety with stunning pink strap-like flowers covering the plant; new foliage matures to burgundy with a purple cast; an easy-to-grow shrub; in Middle Tennessee, semi-evergreen; plant in protected area from wind

#### **Ornamental Features**

Daruma Chinese Fringeflower is draped in stunning fragrant pink strap-like flowers along the branches in early spring. It has burgundy evergreen foliage which emerges coppery-bronze in spring. The oval leaves remain burgundy throughout the winter.

#### **Landscape Attributes**

Daruma Chinese Fringeflower is a multi-stemmed evergreen shrub with an upright spreading habit of growth. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This is a relatively low maintenance shrub, and should only be pruned after flowering to avoid removing any of the current season's flowers. It has no significant negative characteristics.

Daruma Chinese Fringeflower is recommended for the following landscape applications;

### **Planting & Growing**

Daruma Chinese Fringeflower will grow to be about 3 feet tall at maturity, with a spread of 4 feet. It has a low canopy. It grows at a fast rate, and under ideal conditions can be expected to live for 40 years or more.

This shrub does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is particular about its soil conditions, with a strong preference for rich, acidic soils. It is somewhat tolerant of urban pollution. Consider applying a thick mulch around the root zone in winter to protect it in exposed locations or colder microclimates. This is a selected variety of a species not originally from North America.

### **Nursery Notes**

In Middle Tennessee, Loropetalum is semi-evergreen. For it to perform best, plant this shrub in a protected area from wind.
